

# DIG DEEPER

into  
Summer Reading  
at the  
**FORSYTH PUBLIC LIBRARY!**

Dig Deeper into reading this summer at the Forsyth Public Library! We encourage all ages to dig below the surface to read, investigate, and discover. It's a great way to have some summer fun while maintaining reading and literacy levels. It's also an opportunity to enjoy family time together, showing your children that reading is a genuine source of pleasure for all ages. Registration begins May 26, but you can sign up at any point throughout the summer.

Forsyth Public Library's summer reading program is available virtually on READsquared this year. Download the app or create an account online at [forsythlibrary.readsquared.com](https://forsythlibrary.readsquared.com). You can sign yourself up for the program or register your entire family at once. The app makes it simple to track your time spent reading. Plus you'll receive badges, unlock mini-games, and earn prizes. Participate in missions and library events for access to even more badges!

Not interested in going virtual? We'll still have paper reading logs available to pick up at the library or to print yourself from our website.

Although our programming will look a little different this year, we are still offering a variety of activities for all ages. Coding classes, STEM programs, virtual story times, and craft classes will all be available online for children and teens to do from home. Adults will have technology classes and craft classes, also online. Details for all these events are available on the library's Facebook page. Plus, we plan to offer Take 'n Make kits throughout the summer that you can pick up from the library for fun at home.
